Autumn Winter 2026

## Autumn Winter 2026

**W**e are living in a new world shaped by AI and rapidly evolving technology, where instant access and digital convenience dominate daily life, yet beneath the hum of innovation, there remains a deep, human craving for the slower, richer rhythms of the past. Many still find solace in wandering historic cities, running their fingers along weathered stone walls, or sitting quietly in libraries where the scent of old

books lingers in the air. Classic novels, hand-bound journals, and the quietude of thoughtful academia offer an antidote to the noise of the modern age. There is a particular charm in admiring old architecture, with its intricate details and stories etched in stone, or sipping coffee in a sunlit square where time seems to pause. Even as we step further into the future, the timeless beauty of culture, knowledge, and reflection continues to ground and inspire us.

# Yarns

## CASHMERE

The ultimate in luxury hosiery, cashmere socks are exquisitely soft and approximately three times warmer than socks made from sheep's wool. We source our cashmere from the finest Scottish mills and our leisure weight yarn is woollen spun using a supreme grade of cashmere knitted with nylon to give our socks extra durability and stretch.

## MERINO WOOL

The coat of the Merino sheep is synonymous with the production of fine, soft wool. Pantherella uses only worsted spun Merino, ensuring durability and strength. The long fibres give our socks their distinctive softness and luxurious feel.

## EGYPTIAN COTTON

Our Egyptian Fil D'Ecosse yarn is grown exclusively in the Nile Delta region. Its long staple fibres possess exceptional properties that produce a supremely fine, comfortable and resilient yarn, with enhanced longevity and shrink resistance.

## COTTON & WOOL BLEND

Cotton and wool blends combine the strengths of both fibre, offering improved comfort, durability, and versatility compared to pure cotton or wool. The mixture provides wool's warmth and resilience with cotton's softness and breathability, making it ideal for year-round versatility and comfort.

## Size Guide

MENS	UK	EURO	USA
