

SHANGRI-LA
HERITAGE

Carryover Collection

The Spirit

The legend was born in the 17th Century, as the first European travelers explored Tibet, and tells of "Shangri-La" as a mythical valley, a mysterious and unreachable place, which evokes pure human desire and deep spirituality.

The name retraces the dream for explorations on motorcycles hunting for beautiful and forgotten spots, in a word, searching for the Shangri-La.

Heritage comes from the need to create iconic and timeless garments, inspired by the past. Designed for Bikers, Rockers and Gentlemen.

Mission

Working hard to deliver high quality products from Northern Italy. The company founders are always on the road looking for new adventures, discovering places, meeting up people who share their interests and getting to know new fabric types and manufacturing techniques, valuable to keep their products up-to-date.

"By riding our motorbikes through Europe we come across sensational places and interesting heads. We tie up pleasure and business to offer the best quality-goods", ends in style Daniel Verzeroli.

Craftsmanship

OUR VALUES - Every garment we make is the most authentic expression of our values. From the moment you step foot in the workshop and see the artisans at work, you can feel the sense of creativity and humanity of this place. They've been doing what they love for more than 40 years, with passion and using the same traditional techniques.

In a world where everything is mass-produced, we're turning back the clocks: we've chosen to invest our time, skills, and experience to highlight the Italian craftsmanship through the beauty of our products, in our identity.

ITALIAN EXCELLENCE - Our products are inspired by the iconic garments from the last Century, revisited with a unique Italian touch. They are synonymous with a flawless blend of superior craft skills, timelessness, attention to detail, and versatility. They are an authentic portrayal of Italian excellence, our heritage, they combine manual work and creativity elevating the art of craftsmanship at its finest.

QUALITY - From top quality Steerhide to Front Quarter pull-up Horsehide, from Selvege Denim to Recycled Kilim Wool, we personally source all of our leathers and fabrics directly from small producers around Italy and Europe.

MADE-TO-MEASURE - We offer all our clients a personalized experience. We accompany them with a tailored approach whether purchasing ready to wear or commissioning a Made-to-Measure jacket, or creating an entirely custom bespoke piece.

Proudly Hand Made in Italy

Proudly Hand Made in Italy

We have a dream we'd love to share with you: to spread the beauty of Italian craftsmanship and to make it known to as many people as possible.

With this goal in mind, we made this special video project to showcase the Artisans who, with passion and dedication, pour their knowledge and expertise into the making of our jackets.

And with great honor, our Customers are part of this journey, lending their voices to narrate the video.

Thank you All.
